

LINCOLN/MACON SPEEDWAY LINEUP PROCEDURES

PRO LATE MODELS

Pill draw will be used to line up single or dual car qualifying order. Drivers will get two laps each for qualifying, if they qualify in their spot. Staggered heats will start with fastest to the front. Heat finishes will line up feature with NO passing points. A dice roll of (1-6) will determine the invert for the Pro Late Model feature as long as there are at least 10 cars. The same dice roll will determine Pro Late, Modified, and Hornet invert.

MODIFIEDS

Pill draw will be used to line up dual car qualifying order. Qualifying order will also be used to split field into groups which will keep drivers in that same group for their heat. Heats will start straight-up with fastest to the front of each. Heat finishes will line up feature with NO passing points. A dice roll of (1-6) will determine the invert for the Modified feature as long as there are at least 10 cars. The same dice roll will determine Pro Late, Modified, and Hornet invert.

STREET STOCKS

Pill draw will be used to line up heat race events. Passing points will be used to determine starting lineup for feature event.

SPORTSMAN

Pill draw will be used to line up heat race events. Passing points will be used to determine starting lineup for feature event.

HORNETS
